Wi-Fi

Connect and share

Wi-Fi* support allows cameras to instantly connect with smartphones and tablet PCs when you are out and about, and with wireless networks, computers and printers when you're back home. Once connected you can upload images online and instantly share the precious moments of your life with friends and family using email or sharing sites such as Facebook and YouTube™.

View and share from your smartphone

1. Send your photos and videos directly from your camera to your smartphone or share them with your friends' smartphones
2. Browse and playback the images stored in your camera from your smartphone or tablet
3. Share your photos online using your smartphone's or tablet's data connection

Smartphone Wi-Fi hotspot

Provided that your smartphone and data network provider support it, you can also upload images online using your phone's Wi-Fi hotspot feature.

Use these platforms to share!

PowerShot N

Creativity with a twist

Offering a unique synthesis of effortless creativity, minimalist 'Any Way Up' design and premium image quality, the PowerShot N with Wi-Fi lets you shoot, create and share life from every angle.

Key features

- Unique symmetrical metal body
- 8x optical zoom, 28mm wide lens with Intelligent IS and 16x ZoomPlus
- HS System with 12.1 Megapixel CMOS and DIGIC 5
- Wi-Fi for instant sharing and GPS tagging via mobile
- Mobile Device Connect Button for easy Wi-Fi connection to smartphones/tablets
- 'Any Way Up' control: zoom and shoot lens rings, tilt-up 7.1 cm (2.8") capacitive touchscreen
- Full HD movies with optical zoom

Originality is effortless with Creative Shot. Simply take a shot and the camera will analyse the scene and automatically generate five creative images plus the original unaltered photo.

HS System · 12.1 Megapixel High-Sensitivity CMOS · 28mm Wide 8× · Intelligent IS · 16× ZoomPlus · Creative Shot · Wi-Fi Certified

IXUS 255 HS

Chic, connected and impressive 10x IXUS

Focus on style and performance with the IXUS 255 HS. Get closer or fit everyone in with an ultra-wide 10x optical zoom and use Wi-Fi to share instantly online. HS System ensures exceptional results.

Key features

- 10x optical zoom, 24mm wide lens. 20x ZoomPlus
- HS System with 12.1 Megapixel CMOS and DIGIC 5
- Intelligent IS keeps photos and movies sharp and detailed
- Wi-Fi for instant sharing and GPS tagging via mobile
- Slim metal body with 7.5 cm (3.0") strong, clear PureColor II G LCD
- Smart Auto (58 scenes) for point and shoot ease.
- Full HD movies (1080p) in stereo with optical zoom and HDMI-CEC

An ultra-wide-angle lens ensures nothing is left out of your composition – whether shooting vast landscapes or trying to get all your friends in an indoor scene. 10x optical zoom in slim body means great zooming flexibility everywhere.

HS System · 12.1 Megapixel High-Sensitivity CMOS · 24mm Wide 10× · Intelligent IS · 20× ZoomPlus · Full HD · Wi-Fi Certified

Smart Auto Technology

Smart Auto is the ultimate automatic shooting mode. It uses multiple intelligent technologies so everyone can simply point and shoot to capture superb images – with stunning sharpness, detail and colour – in any situation. Whether you need to capture a fleeting photographic moment or to take holiday pictures without hassle, Smart Auto will always help you to impress everyone with your results.

Scene Detection

With Without

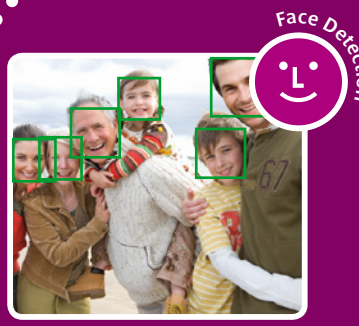
Scene Detection can detect up to 58 different scenes and helps you to easily capture each moment just as you saw it – from the golden sunsets of your summer holiday or your favourite band performing on a spotlit stage to your baby's first smile.

Advanced Subject Detection

Advanced Subject Detection can automatically detect a moving subject, such as a vehicle or a pet, and tracks it – ensuring it remains in focus and well-exposed until the picture is taken.

Smart Auto in Movie

Effortlessly shoot superb movies with sharp focus, excellent detail and vibrant colours. Smart Auto in movies detects up to 21 scenes then selects the optimum settings, capturing every moment as you saw it.



Face Detection

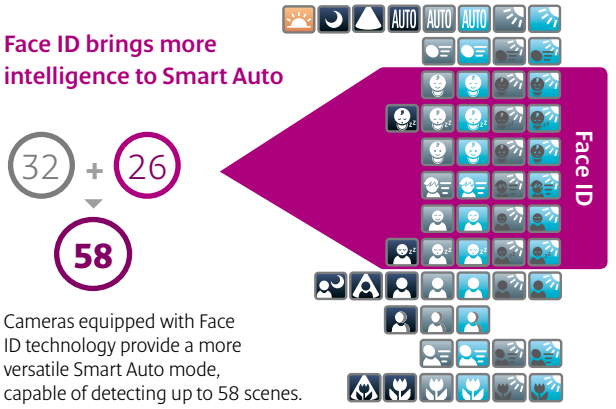
Face Detection quickly and accurately detects faces in a scene and then optimises camera settings so that everyone looks their best. With the ability to detect multiple faces in a frame, it's great for group photos as well as portraits. Blink Detection provides a warning whenever faces are captured with their eyes closed.

Face ID

Face ID lets you register up to 12 faces of family and friends, so they are automatically the focusing priority in every shot, and tags images with their names so they are easy to find in playback.

Smart Auto also works with faces registered with Face ID to adapt shooting settings to the person's age – for example turning off flash and sounds when a sleeping baby is detected or engaging continuous shooting and Servo AF/AE when children at play are detected.

Face ID brings more intelligence to Smart Auto



Cameras equipped with Face ID technology provide a more versatile Smart Auto mode, capable of detecting up to 58 scenes.

my next step? **seeing the world from a new perspective**

Capture and share all your new experiences with a camera designed to be your perfect travel companion.

Whatever the conditions, get superb quality with the Canon HS System and share your experiences effortlessly with Wi-Fi and GPS location tagging. With Full HD and large LCD screens, wherever life takes you, you'll never leave anything behind.

GPS

PowerShot SX280 HS

Connect with the complete travel compact

The compact PowerShot SX280 HS packs all you need to capture and share your travels: 20x optical zoom, smooth Full HD 60fps movies, HS System, GPS tagging and Wi-Fi. So wherever life takes you, make sure you pack the perfect travel companion.

Key features

- Compact 20x optical zoom, 25mm wide-angle lens 40x ZoomPlus
- HS System with12.1 Megapixel CMOS and DIGIC 6
- Intelligent IS for sharp shots; Enhanced Dynamic IS for steady movies
- Wi-Fi for fast sharing
- Full HD (1080p) at 60fps for smoother movies in stereo
- Large 7.5 cm (3.0") PureColor II G LCD (460k)

Tag the shooting location of your pictures and movies and keep track of your journey with GPS tagging and logging. A-GPS support allows faster position tracking.

HS System · DIGIC 6 · 25mm Wide 20x · 40x ZoomPlus · Intelligent IS · 7.5 cm 3.0" PureColor II G · GPS · Wi-Fi Certified

Movies

Watch and share your movies easily with HDMI port and MP4 support. Full HD 60p offers stunning footage of action, while Fine Detail Movie Processing improves clarity by processing 4x the amount of detail.

Hybrid Auto / Movie Digest

Hybrid Auto and Movie Digest capture a 4 second movie clip before each shot – combining them into a fun bonus movie summary of your day. Hybrid Auto additionally lets you take superb photos using the power of Smart Auto.

Fine Detail Movie Processing

Fine Detail Movie Processing records videos by processing approximately 4x the amount of image detail than a conventional Full HD-capable camera - for improved clarity and sharpness.

60p video

Using the power of the DIGIC 6 processor, video can be captured in Full HD 60p (60 frames per second) quality providing smooth footage for stunningly realistic action in movies.

HS System

Canon's innovative HS System represents an exclusive combination of a high-sensitivity sensor and a powerful DIGIC processor that work together to give premium image quality in all situations. It excels in low light, encapsulating nearly every nuance of light and colour in superior quality images that express the natural atmosphere of the moment.

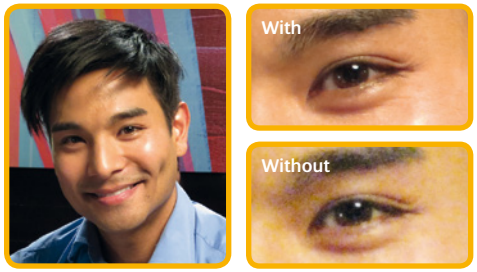
Canon DIGIC processor

Canon's DIGIC processor is the brain inside every Canon digital camera – processing information from the image sensor for optimum image quality and fast camera operation.

DIGIC 6 is the latest evolution with faster image processing and improved noise reduction, as well as special features such as Enhanced Dynamic IS, Full HD 60p movie capture and better low light performance in movies.

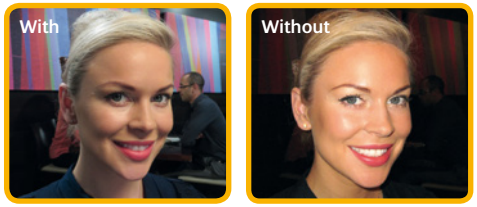
Not all features are available on all cameras

Superior image clarity, colour and detail in all situations



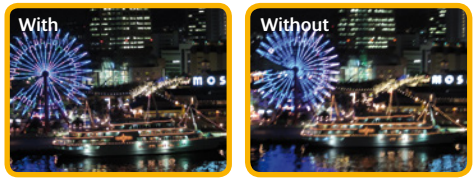
Even at the highest ISO sensitivities, HS System delivers low noise, detailed images with accurate and pleasing colours. So you can get great results in situations where you would normally not be able to – without using flash or something to rest the camera on.

Shoot without flash to capture the true atmosphere



Flash is often necessary to prevent blur in low light shots but it can ruin the atmosphere of a photo, resulting in pale faces and unnatural colours plus dark backgrounds, which make it hard to see the location. HS System cameras allow you to shoot without flash, capturing the scene exactly as you remember it.

Shoot blur-free images in low light without a tripod



Shooting night scenes without resting the camera on a stable object can give blurred results. Because of the low light abilities of HS System, you can shoot handheld with less blur.

my next step? **finding that unique shot**

Whatever you discover, shoot it expertly with cameras created for extraordinary photographs and movies.

50x ultra zoom and an ultra wide view enables you to shoot extreme images in stunning quality. Whatever you see and wherever you see it, manual modes and Enhanced Zoom Framing Assist put you in control of your shot, so you have the power to capture even the most extreme telephoto shots.

PowerShot SX50 HS

Powerful Optical Zoom 24mm WIDE 50×

Ultra advanced 50x zoom

A powerful 50x ultra zoom for extreme telephoto shots. Intelligent IS counteracts shake and Zoom Framing Assist helps keep subjects in the frame. A premium lens, manual modes and RAW give expert results.

Key features

- 50x ultra wide-angle (24-1200mm) optical zoom lens
- Intelligent IS adapts the optical Image Stabilizer to the scene
- 12.1 Megapixel HS System with DIGIC 5 processor
- Full HD movies (1080p) with optical zoom, stereo sound and HDMI-CEC
- 7.1 cm (2.8") vari-angle PureColor II VA LCD, plus EVF
- Manual modes and RAW file support
- Smart Auto with Multi-area White Balance optimises settings for 58 scenes

A huge 50x optical zoom range combined with an ultra wide view makes a superbly versatile lens for all subjects. Enhanced Zoom Framing Assist helps seek and lock on to subjects at high zoom.

HS SYSTEM · 12.1 MEGA PIXELS HIGH-SENSITIVITY CMOS · 24mm WIDE 50× · 100x ZoomPlus · INTELLIGENT IS · 7.1 cm 2.8" Vari-angle LCD · FULL HD · RAW

Optical Excellence

The innovation and quality standards of high-end optics such as TV broadcast and EOS EF lenses – trusted by millions of professionals throughout the world – are shared with Canon's digital compact camera lenses to ensure each one delivers superb images with stunning clarity and sharpness.

Using the latest technology, Canon is developing and manufacturing some of the smallest and most powerful compact lenses available that not only produce images of exceptional quality but also fit into slim and ultra-portable camera bodies.

Canon's first 50x optical zoom lens

The astonishing zoom power of the PowerShot SX50 HS covers a total focal range of 24mm to 1200mm, yet still delivers superb image quality and maintains the camera's compact size. Optical excellence is supported by an Ultrasonic motor for fast zooming and optical Image Stabilizer for sharp results.

30x optical zoom in a mini camera

Optics miniaturisation allowed the creation of a very compact ultra-zoom camera – the SX510 HS – which combines tiny size and big zoom with superb high resolution results.

24mm · 30x optical zoom · 50x optical zoom

Not all features are available on all cameras

my next step? **capturing our memories**

Record all your special moments in the detail they deserve.

With super zoom capability and intelligent technology, these easy-to-use cameras will help you create stunning photographs and steady movies you'll want to see again and again. And with the 28mm wide-angle lens, you'll get the entire family in the frame.

Creative filters

PowerShot SX170 IS

Super easy, Canon quality 16x superzoom

Get 16x closer and shoot detailed 16 Megapixel photos and HD movies with ease using the compact, family-friendly PowerShot SX170 IS. Intelligent IS ensures sharp results even at long zoom.

Key features

- 16x optical zoom lens with 28mm wide-angle
- 16 Megapixels for detailed shots
- Optical Image Stabiliser with Intelligent IS
- Large 7.5 cm (3.0") LCD with helpful Hints & Tips
- Smart Auto mode detects 32 scenes for point and shoot simplicity
- Effortless HD movies (720p) with stereo sound

Experiment and have fun with a range of Creative Filters including Miniature and Toy Camera Effect, Fish-eye effect and Super Vivid.

Intelligent IS

Shooting with the zoom extended or in dark conditions can cause camera shake and possibly blurred results. Canon's pioneering solution is Intelligent IS – an advanced optical (lens-shift) image stabilisation (IS) system that delivers sharper and clearer photos and movies. Versatile and fully automatic, it constantly detects your subject and adapts the optical Image Stabilizer to the scene, from seven available modes:

Image IS:

With Panning IS

Without Panning IS

Normal IS | Panning IS | Tripod Mode | Macro IS

PowerShot SX160 IS

Get 16x closer with ease

Detailed 16 Megapixel photos and HD movies are easy with the compact, family-friendly PowerShot SX160 IS. Use the versatile 16x optical zoom with Intelligent IS for sharp, detailed long zoom shots.

Key features

- Canon 16x optical zoom lens with 28mm wide-angle in a compact body
- 16 Megapixels for detailed shots and poster-size prints
- Optical Image Stabilizer with Intelligent IS for sharp photos and steady movies
- Large 7.5 cm (3.0") LCD with helpful Hints & Tips
- Smart Auto mode detects 32 scenes (21 in movies) for simple point and shoot
- Effortless HD movies (720p) with stereo sound, movie button optical zoom and HDMI

Manual modes (Tv, Av and M) give you control over the aperture and the shutter speed settings of the camera, allowing you to experiment and give a personal touch to your photos.

16.0 MEGA PIXELS · 28mm WIDE 16x · 32x ZoomPlus · INTELLIGENT IS · Smart AUTO 32 SCENES · 7.5 cm 3.0" LCD · HD MOVIE STEREO SOUND

PowerShot A1400

Flexible framing made simple

The versatile 16 Megapixel PowerShot A1400 offers ultimate ease of use for superb photos and HD movies every time. Get closer with 10x ZoomPlus and frame in comfort using the optical viewfinder.

Key features

- 16 Megapixels for highly detailed large prints
- 28mm wide, 5x optical zoom lens for group shots or getting close
- 6.8 cm (2.7") LCD plus optical viewfinder for flexible framing
- Smart Auto (32 scenes) for point and shoot simplicity
- HD movies (720p) and Movie button to instantly capture all the action in detail
- Digital IS mode keeps images sharp and clear

An optical viewfinder allows you to take pictures using a more traditional method. Depending on the shooting conditions, this can give you better stability and improve framing visibility.

16.0 MEGA PIXELS · 28mm WIDE 5x · 10x ZoomPlus · Smart AUTO 32 SCENES · Optical Viewfinder · Digital IS · HD MOVIE

my next step? **pushing myself to the limit**

Capture all your adventures with a camera that's as resilient as you are.

Relive your thrills and adventures with a camera built for extremes. Waterproof, shockproof, freezeproof and dustproof, with these products alongside cases to protect your camera, the only boundaries are the ones you bring with you.

PowerShot D20

One camera, endless adventures

Rugged and reliable the PowerShot D20 includes HS System and 5x optical zoom with Intelligent IS to bring high performance stills and movies to every outdoor adventure, plus GPS to track the thrills.

Key features

- Rugged camera with 12.1 Megapixel HS System for great results even in low light
- 28mm, 5x optical zoom with Intelligent IS
- GPS tags your shots and logs your journey
- Large 7.5 cm (3.0") PureColor II LCD (460k) and Active Display with Tap Control
- Full HD movies (1080p) with optical zoom and HDMI
- Movie Digest and Super Slow Motion Movie add more ways to capture your adventures

Constructed for harsh conditions, the PowerShot D-series cameras are waterproof down to 10m, shockproof to drops and knocks, operate in temperatures as low as -10 °C and are fully protected from dust.

HS System · 12.1 Megapixel High-Sensitivity CMOS · 28mm Wide 5x · Intelligent IS · GPS · Full HD · Underwater Macro

WP-DC49 for PowerShot SX 270/280 HS

WP-DC45 for PowerShot D20

Waterproof cases

The PowerShot D20 is waterproof down to depths of 10m and designed to meet the photographic challenges of shooting great pictures in an aquatic environment. Alternatively Canon's optional waterproof cases offer protection down to depths of 40m for a deeper exploration of the underwater world.

Perfect for scuba diving and snorkeling, they provide easy access to many photographic controls, such as White Balance adjustment and Exposure Compensation for adapting the camera to different aquatic environments. They can also be useful on land, protecting against snow, sand, dust and humidity.

Please refer to page 43 for waterproof case compatibility by model

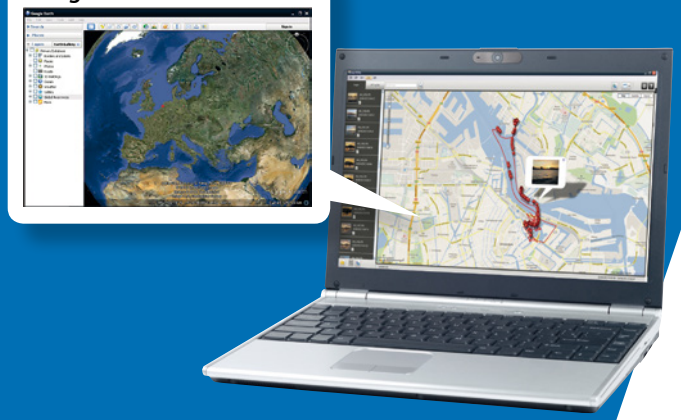
Track your travels with GPS

When visiting many places it can be hard to remember exactly where each image was shot - Canon compact cameras with GPS or GPS via Mobile can easily solve this problem.

With the GPS feature enabled, the camera tags each photo or movie file with location information. This data is saved within the file and can be used to pinpoint the location of the image on a map.

Canon's Map Utility software is available to all Canon compact cameras offering either a GPS or GPS via mobile feature. This special computer application allows you to display the location of your images on Google Maps*.

Google Earth



*Google, Google Maps and Google Earth are trademarks of Google Inc.

Software

ImageBrowser EX

ImageBrowser EX is a special image management software, supplied with all Canon compact cameras, that helps you make the most of your images and movies.

A modern and intuitive interface allows you to browse your galleries, preview images, edit movie clips and examine shooting information. Plus you can instantly share images on your Facebook, YouTube™ and CANON iMAGE GATEWAY accounts.

For cameras supporting special functions such as GPS and Face ID, ImageBrowser EX offers special add-ons* for seamless integration. For example the Face ID add-on can help you search tagged shots by a specific person. It can also recognise additional faces from the images stored in your galleries, so you can tag even more friends with their names.

*Some features require internet connection and to connect the camera via a standard USB-compatible cable such as the Canon IFC-400PCU interface cable.

Great cameras deserve protection

Canon has a great range of protective cases and other accessories for its award-winning digital compact cameras. Whether you want to protect your camera or enhance your photography, Canon's range of top quality accessories has the product to suit.

Travel Case
DCC-2500

Softcases

Protect your compact camera from dust and scratches with stylish softcases.

1. Softcase DCC-520 for PowerShot A2500 /A2600 / A3500

my next step? **bringing my photos to life**

With a SELPHY Compact Photo Printer you can turn photos captured from a range of devices into beautiful, long-lasting prints in seconds – plus experiment with creative effects, layouts and printing formats.

Wi-Fi connectivity

The SELPHY CP900 includes Wi-Fi support for ultra convenient wireless photo printing from smartphones, tablets* and PCs as well as PictBridge via wireless LAN compatible cameras such as Canon Wi-Fi-enabled compact cameras.

It can easily print from home Wi-Fi networks or alternatively connect directly to iOS devices and compatible digital cameras, without an access point – so you can print your photos anywhere.

*For more information on Android device support please visit: www.canon.com/eppa
For more information on Apple iOS device support please visit: www.canon.com/iepp

Computer printing | Camera printing | Smartphone printing

SELPHY CP900

Wireless photo printing made easy

With Wi-Fi for quick and easy printing from smartphones, tablets and other wireless devices, the ultra-compact SELPHY CP900 delivers beautiful long-lasting, lab-quality prints in under 1 minute.

Key features

- Ultra-compact and portable photo printer – perfect for printing anywhere
- Wi-Fi for easy printing from smartphones, tablets, PCs and compatible cameras
- Fast, lab-quality, durable prints in under 1 minute for long lasting memories
- 6.8 cm (2.7") tilting LCD for easy operation and viewing
- Print directly from memory cards, digital cameras or USB sticks
- Range of print sizes and layouts to suit every project
- Auto Image Optimize with Scene and Face Detection corrects images for superb results
- ID Photo Print with face-frame guide creates ID photos in widely accepted sizes
- Optional battery lets you print on the move
- SELPHY Photo Print software

Wi-Fi CERTIFIED | PictBridge | 6.8 cm 2.7" Tilt-up LCD | Post Card 47 sec. | Image Optimize | OPTIONAL BATTERY NB-CP2L | ID Layout

SELPHY

From pixel to print

It's easy to share your pictures with SELPHY, thanks to Canon's intelligent technologies and user-friendly design.

Dye-sublimation technology ensures lab-quality prints that will last up to 100 years stored in an album. A special protective coating ensures every print is completely dry and resistant to water, fingerprints and scratches.

100 YEARS PRINT · Dye-Sub · ID Layout

SELPHY lets you produce prints of different sizes, combine multiple photos on a single page with Layout Print or create beautiful collage prints with colour effects using Shuffle Layout. Auto Image Optimize can automatically improve print quality, while ID Photo Print creates ID photos in widely accepted sizes.

SELPHY CP810

Stylish portable printing in an instant

Turning photos into beautiful lasting prints with the SELPHY CP810 is so easy. Small, stylish and portable, with a tilting LCD and interface anyone can use, it can print anywhere in under 1 minute.

Key features

- Stylish, ultra-compact photo printer – perfect for instant prints
- Simple operation for fast, lab-quality prints in under 1 minute
- 6.8 cm (2.7") tilting LCD for easy operation and viewing
- Print directly from memory cards, digital cameras or USB sticks
- ID Photo Print creates ID photos in widely accepted sizes
- Range of print sizes plus image trimming function to suit very project
- Auto Image Optimize with Scene and Face Detection corrects images for superb results
- 100-year prints for long lasting memories
- Optional battery lets you print on the move
- SELPHY Photo Print software for adding frames and decoration to prints

Direct printing from memory cards, digital cameras and USB flash sticks makes it easy for everyone to enjoy printing their photos
